[Enterprise System Core](#)

PROFESSIONAL SUMMARY

Hands-on Full Stack Developer with experience designing, building, and deploying complete web applications as personal projects. Focuses on React, Node.js, REST APIs, database design, debugging, and technical documentation. Built and shipped a clinic management system, a marketplace platform, and an enterprise-style core system on Replit using an independent, problem-solving workflow.

TECHNICAL SKILLS

Front-End

React, JavaScript (ES6+), TypeScript, HTML5, CSS3, Node.js, Express.js, REST APIs, Authentication, Responsive UI

Databases

PostgreSQL, MongoDB, Database Design, Data Modeling

Back-End

Node.js, Express.js, REST APIs, Authentication, Authorization

Tools

Git, GitHub, Replit, VS Code, AI-assisted Development

SELECTED PROJECTS

ClinicPro / MediCare

Live clinic management application.

- Built and deployed a working system for patient and appointment management.
- Organized roles, workflow, and administrative operations into a structured app.

[Live Demo: https://system-core-project-2-zip--bsabra1994.replit.app/](https://system-core-project-2-zip--bsabra1994.replit.app/)

Hyperlocal Marketplace Platform

Marketplace-style application inspired by modern ordering platforms.

- Developed a live product and order workflow application.
- Designed user flows for browsing, ordering, and administration.

[Live Demo: https://104-mg-2--shahoda8601.replit.app/](https://104-mg-2--shahoda8601.replit.app/)

Enterprise System Core

Additional deployed system demonstrating core business logic.

- Built a separate working project to showcase system workflows and deployment.
- Used to practice architecture, validation, and reusable development patterns.

EDUCATION

Advanced Technical Diploma (Five-Year Program)

Computer & Electronics Department - Sultan Al-Hussein Advanced Technical School - Belbeis, Sharqia, Egypt

LANGUAGES & STRENGTHS

Arabic: Native

English: Professional reading and technical documentation

Problem solving

Analytical thinking

Fast learning

Attention to detail

Remote collaboration

CAREER OBJECTIVE

Seeking a Junior Full Stack Developer role where I can contribute to reliable software products, continue improving my technical skills, and deliver practical value through clean, maintainable code.
